WG on Digitalisation & AI

- IMEKO is considering starting a Working Group (WG) on the topic of digitalization and AI in metrology: this will cover many aspects such as digital calibration certificates, open and non-open datasets, use of AI and uncertainty, etc.
- If any of you are involved in any working groups on digitalization or AI at a local/national level, please let me know. Also, let me know if you are available to collaborate with the IMEKO WG.

TC2 - Photonics

The Technical Committee, 2 of IMEKO (IMEKO TC2), was established in 1962.

The founder was Professor Dr. Dr. H. C. P. Görlich.

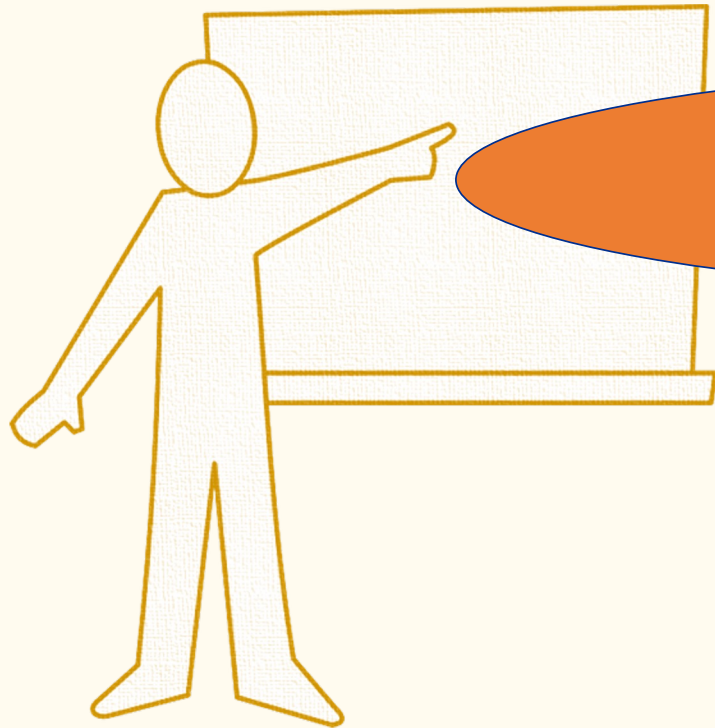

IMEKO TC2 has more than 15 Members from the following 12 countries:

ITALY | AUSTRIA | GERMANY | BRAZIL | CZECH REPUBLIC | POLAND | REPUBLIC OF KOREA | BULGARIA | RUSSIA | SPAIN
| CANADA | USA

Responsible for the IMEKO TC2 website content is: Prof. Luigi Rovati (see [Members](#)).

I would like to update our website. I cannot access the list of members, but everything else can be changed. I kindly ask you to review our pages and send me your suggestions. I will proceed with the update towards the end of September
